

INFORMATION FOR SCHOOLS

WHAT DO THE SCHOOLS HAVE TO DO?

- 1) The school appoints a responsible person for the Study.
- 2) The responsible person collects the parents' and teachers' consent to participate in the Study, organises introductory meetings on the Study if needed, and keeps contact with the EuCARE scientists.
- 3) The Headteacher or the responsible person fills in a simple weekly questionnaire on the new regulations adopted by the school, if any, and on positive cases in school.

WHAT DO EDUCATORS OR TEACHERS NEED TO DO?

- 1) Teachers/educators receive information on the study and ask all the clarifications they need. Then, if willing, they sign an informed consent form to participate in the EuCARE SCHOOLS study.
- 2) The teachers/educators fill in weekly questionnaires on the activities and preventive measures held in the classes.
- 3) They are also invited to participate in the psychological evaluation. To do this they fill in a psychological questionnaire at the beginning and at the end of the study period.
